

Business Banking

switch kit

Thank you for choosing Flagstar Bank.

We crafted this kit to make your transition to Flagstar as simple as possible. We look forward to working with you and custom building a solution that meets your business's needs.

To complete your transfer to Flagstar Bank, simply follow these steps:

Step 1:

Open your new Flagstar business checking account. If you need assistance selecting one, speak to your financial craftsman.

Step 5:

Transfer any incoming deposits to Flagstar, and notify anyone electronically crediting your old account about your new account. To facilitate these changes, we've included an Incoming Deposit Change Authorization form in this kit.

Step 2:

Cease activity on your old business checking account, being sure to allow time for outstanding checks to clear. Destroy any ATM/debit cards, unused checks, and deposit slips.

Step 6:

Close your old checking account once your checks have cleared and your automatic payments and direct deposits are successfully being deducted or credited to your Flagstar account.

We've included an Authorization to Close Business Account form to make this easier.

Step 3:

Provide your payroll processor with your new Flagstar account number. Your financial craftsman can help you complete the Payroll Processor Notification form, which is included with this kit.

Step 4:

Switch any automatic payments to your new Flagstar account. These include utility bills, dues, and vendor payments. If written notifications are required, please use the Automatic Payment Change Authorization form in this kit.
